*Child Abuse and
Neglect
Prevention Month*

Toolkit

Wisconsin Department of
Children and Families

April is National Child Abuse and Neglect Prevention Month

Every child deserves to grow up in a safe, stable, and nurturing environment. Please join us during April Prevention Month by promoting and strengthening child abuse prevention efforts in Wisconsin.

Children are the foundation of our society, our community and our future. Children raised in loving and supportive environments are more likely to prosper academically and financially, becoming successful contributing members of society. Wisconsin must be a leader and champion for all of our children. We need to enhance the success of our communities by promoting programs and policies that seek to support the lives of children and families. Preventing child abuse and neglect results in better childhoods, ultimately saving millions of dollars currently needed for the services that address the short and long-term effects of abuse on children, their families, and our communities. The savings generated through prevention can be used to serve our communities in other ways, making them safer, economically successful, and great places to live and grow.

In April, we come together to participate in activities that show our commitment to children and families. This toolkit provides information to communities, organizations, and individuals on how to promote child abuse and neglect prevention efforts in April and throughout the year. Please feel free to use the ideas presented or use the information to develop your own ideas. It doesn't matter how big or small your effort. Prevention is about making sure our communities know and show that all children deserve great childhoods.

Join the Wisconsin Child Abuse and Neglect Prevention Board, Prevent Child Abuse Wisconsin (PCAW), a program of Children's Wisconsin, and Wisconsin Department of Children and Families in our April Prevention Month activities.

Create a Plan for Action!

This toolkit provides ideas for planning a Child Abuse and Neglect Prevention Month campaign, as well as ways to maintain those efforts throughout the year. Developing a strategy early will ensure the best outcomes for your organization. Use these steps to create your action plan.

Build a community partnership

When it comes to building community awareness there is strength in numbers. Join resources by partnering with other organizations, business leaders, faith-based groups, families, teachers, law enforcement, students, or other adults to implement effective prevention strategies that promote safe, stable, and nurturing environments for children and families.

Understand the issue of child abuse and neglect

Wisconsin recognizes six categories of child maltreatment, which include physical abuse, neglect, sexual abuse, emotional abuse, the manufacture of methamphetamine, and abuse to unborn children. To learn more about the types and conditions of child maltreatment please visit the Department of Children and Families website at: <https://dcf.wisconsin.gov/index.php/cps/signs>. Additional information can be found by visiting preventchildabusewi.org. State and localized data is available through the Department of Children and Families at dcf.wisconsin.gov.

Outline your strategy

Your campaign will have greater success if you have an organized plan with a timeline. Think about the audience you are trying to reach, and tailor your message to reach that audience. Determine the steps needed to create a campaign, and the resources you require to implement it. Connect with your community partners and combine resources to ensure your message reaches as many people as possible. Don't forget to share your ideas and events by emailing pcaw@chw.org so we can promote your events statewide through our social media page.

Choose activities to implement

Our toolkit is just a jumping off point to the variety of activities you can implement. We encourage you to think outside the box and be creative. Other groups have sponsored community kick-off events, school events and assemblies, family fun days, community walk/run, trainings, and coloring contests. The possibilities are endless!

Involve the media (traditional and social media)

Spread the word! Press releases, letters to the editor, PSAs, radio and television interviews, and websites are great ways to reach out through traditional media channels. Social media networking through blogs, podcasts, photo, and video sharing are other ways to spread the word. Sample press releases and social marketing ideas, which can be adjusted for your local events, are provided in the toolkit.

Check back for more

We will continue to add materials to our websites to provide you with updated resources to help make your local event(s) successful. April is Child Abuse and Neglect Prevention Month, but you can also plan events throughout the year to build awareness and to strengthen families in your community.

Ways to Promote Child Abuse and Neglect Prevention

Trainings

- Host a Stewards of Children™ training to educate adults to prevent, recognize and react responsibly to child sexual abuse. It is the job of adults to protect our children. Find out more at a2awisconsin.org
- Arrange to host a *Bringing the Protective Factors Framework to Life in Your Work* training to educate professionals who work with children and families on effective strategies to strengthen families and reduce the likelihood of child abuse and neglect. To request more information or to schedule a training, please complete the [Training Request Form](#) found on the Prevention Board's website.
- Host an *ACE Interface* training to educate individuals on the impact Adverse Childhood Experiences (ACE's) have on an individual's health and longevity and the positive impact the prevention of ACE's can have on the community. Visit [SaintA](#) for more information.
- Arrange a *Triple P* session for parents and caregivers. Triple P is an approach to parenting that helps families gain the skills and confidence to handle life's ups and downs. Contact PreventionBoard@wisconsin.gov to discuss options and to schedule a training.
- Host an Sentinel Injuries Training – developed in partnership with Dr. Lynn Sheets and the Milwaukee Child Welfare Partnership, this free, 25-minute module will teach you about marks that matter and sentinel injuries, including why they are significant, who is at risk, and what to do if you suspect abuse. It is intended for childcare workers, child welfare workers, family support staff, and home visitors, but any person working with children will find it a useful tool. <https://uwm.edu/wcwpds/sentinel-injuries/>

Public Awareness

- Five for Families is a statewide public awareness campaign developed as a universal prevention strategy by the Prevention Board. The primary goal of the campaign is to increase knowledge of the Protective Factors Framework, an evidence-informed, strengths-based approach to child maltreatment prevention and family well-being promotion created by the Center for the Study of Social Policy. Visit FiveforFamilies.org for more information.
- Get involved with the statewide *CLICK for Babies* Campaign, clickforbabies.org.

Visual Displays

Set up a display at your work or school site, public library or local business, using symbols such as marbles, M&Ms or pinwheels to represent one of the following statistics:

- Number of children/families who participated in your programs (playgroups, parenting classes, etc.) this past year.
- Number of children born in your town, county during 2020.
- Have children color pinwheel coloring sheets (available at www.preventchildabusewi.org) and display them at your site or in public places such as a bank, library, etc.
- Decorate “Donation Jars” and put them in stores to collect money for your program, a program that works with children/families, or for Prevent Child Abuse Wisconsin.
- Decorate your site with pinwheels. You can purchase pinwheels from Prevent Child Abuse Wisconsin at preventchildabusewi.org.
- At work, employees give a donation to wear *blue* jeans on one day. Monies raised would be given to a child abuse prevention agency.

NOTE: *The statistic should reflect something positive in the community about children, not the number of child abuse reports or victims.*

Community Involvement

Ask local businesses to display informational or promotional materials regarding Child Abuse and Neglect Prevention Month.

- Host a parent support group in a local church, school, library or social service agency. Host a family fun event; such as a family story time, craft event, family game or movie night.
- Work with a local Family Resource Center, Community Center, Family Respite Center or Crisis Nursery to collect needed items.
- Involve Girl Scout and Boy Scout troops, church groups, youth groups, school groups or classes, and other volunteers to distribute pinwheel pictures or pinwheels throughout your community.
- Ask schools, faith organizations, businesses, and others to share messages about strengthening families in their newsletter and bulletins. See sample social media examples on page 16.
- Advocate in local healthcare systems to promote the *Period of PURPLE Crying* or other Abusive Head Trauma Prevention initiatives.
- Connect with your local home visiting services, start one if none are available in your community.
- Contact local area politicians to advocate for city/county recognition of April Prevention Month.
- Connect with other organizations that have awareness events that align with April Prevention Month messaging

Media Tips

One of the best ways to reach a broad audience is to make the most of the available media platforms. Planning is an important step in building your message for prevention. These media tips will help you plan and prepare to promote your prevention efforts and activities through both traditional and social media outlets.

Consider the message

We encourage organizations to take a positive approach to prevention in an effort to increase participation and engagement. People respond better when we provide information on the positive outcomes of our prevention strategies. Some ways to promote the importance of building productive and prosperous futures for our children include:

- Educating and engaging community members to focus on child abuse prevention.
- Reminding the community that being a parent is challenging.
- Highlighting approaches and resources that provide families with support.
- Encouraging community members to help lead, plan, and participate in events so that they have the opportunity to contribute and become invested.

Establish your message for prevention

Build your message to motivate people to action.

- Create a call to action through your social media platforms indicating how individuals, groups, and organizations can participate in prevention efforts.
- Share success stories from prevention efforts both within and outside the community.
- Be clear and consistent in your commitments to prevent child abuse and neglect.
- State the importance of prevention in combating child maltreatment.
- Use images to portray a positive and engaged community.

Social Media Tips

Social media is a perfect way to get people excited about your campaign. Use social media to engage communities and organizations. Start a dialogue and follow the conversations that take place. By monitoring and being actively involved in the discussion about child abuse and prevention, you are able to:

- Frame your message appropriately.
- Develop successful campaigns.
- Respond quickly to negative feedback.
- Positively influence how the public perceives prevention efforts.
- Share positive responses through retweets, shares, and likes.
- Control the flow of incorrect information by answering questions or responding to misconceptions that people may have.

Below are tips for using social media. Use these samples and variations on these same themes during April Prevention Month and throughout the year during your prevention initiatives.

General Social Media Tips

- Post in the late afternoon to increase engagement.
- Include a call to action asking people to share, like, retweet or comment on your post.
- Use visual or interactive content like photos, videos, and links in your postings.
- Respond to comments and posts to foster dialogue.
- Live stream prevention efforts.

The Honorable _____

(Name of your Senator)

United States Senate

Washington, DC 20510

I believe that children deserve to grow up in safe, stable, and nurturing environments. I support legislation and policies at the federal, state, and local levels that assist children and families, promote child abuse prevention efforts, and create caring communities which allow children and families to thrive.

The Honorable (full name)
United States Senate
Washington, DC 20510

Dear Representative/Senator (last name),

Please join our local and national efforts to draw attention to the importance of preventing child abuse and neglect during April 2021, Child Abuse and Neglect Prevention Month.

We need your support for Wisconsin by helping citizens become actively involved in stopping child abuse and neglect before it happens. Please lend your leadership by publicly promoting the message that together we can be instrumental in preventing abuse and neglect.

Ways to promote prevention efforts:

- Advocate for prevention programs and the importance of strong families.
- Spread the word that we can save lives and money by preventing child abuse and neglect instead of treating the lifelong harm caused by childhood adversity and trauma after the fact.
- **Allocate** funds to organizations and other resources designed to stop child abuse.
- Promote and support legislation that grows healthy children and families.
- Make child abuse prevention a priority every day rather than one month per year.

As a public leader, your involvement will draw much needed attention to this important issue while motivating caring citizens to act. Please help spread the word that we can and will make a difference **in the lives of Wisconsin children.**

Thank you.

Sincerely,

Understanding Child Maltreatment

Child abuse can occur anywhere and is not restricted to a particular group, race, income, or location. Wherever there are children, there is the potential for abuse. In order to do your part, it is important to understand and recognize the warning signs for child abuse and neglect.

The Department of Children and Families website has information on:

- Recognizing the Signs of Abuse: <https://dcf.wisconsin.gov/index.php/cps/signs>
- Reporting Suspected Child Maltreatment: <https://dcf.wisconsin.gov/index.php/cps/reportabuse>
- Child Protective Services Agency Contact Information: <https://dcf.wisconsin.gov/reportabuse>
- Child Welfare Reports and Data: <https://dcf.wisconsin.gov/reports?accactive=1>
- Mandated Reporting Online Training: <https://media.wcwpds.wisc.edu/mandatedreporter/>

Mandated reporting is a federal and statutory requirement for specific professionals and service providers, including but not limited to schools, medical staff, law enforcement, and social workers, who are legally bound to make a report when maltreatment or threatened harm to a child is suspected or confirmed. Reporters do not have to prove or personally witness the maltreatment. The law is very clear – reports should also be made when abuse or neglect is **suspected** or where there is a **threat** that maltreatment may occur unless action is taken. (s. 48.981(3), Stats.) Please visit Wisconsin Child Welfare Professional Development System for State of [Wisconsin Mandated Reporter Training](#).

For information on state and county specific child maltreatment incidents, please visit the Wisconsin Department of Children and Families' annual [Wisconsin Child Abuse and Neglect Report](#)
